

Concrete Hoppers

Concrete Hopper - The self-dumping hopper accessory can automatically start to both unload and release when the bumper release touches the side of a dumpster. Once unloading is done, the hopper is able to return to original locked and upright position. This piece of machinery is likewise existing with a cable that enables operation from the seat of the lift truck to be able to have the choice of manually dumping the hopper. There is a locking chain provided so as to lock the hopper to the fork truck. This particular product is constructed with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish to maintain durability.
