

Meritor Part

Meritor Parts - Meritor is a leading global supplier which is proudly established on a 100 year tradition of quality and service. They focus on different modules, integrated systems and parts to original machinery makers and the aftermarket for the industrial and transportation sectors.

Meritor values the needs of their clients to ensure their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their international operations. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than 11,200 people, Meritor encourages innovation and collaboration among a team of knowledgeable professionals.

By just hiring future focused employees, Meritor strongly thinks these top-caliber individuals will be able to quickly get used to to changing environments and demonstrate the commitment and performance required to attain results in the competitive materials handling business. The business empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor provides all of their workers different possibilities for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that consist of axles, drivelines, suspension and braking systems intended for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is likewise responsible for supporting the requirements of their worldwide engineering employees.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated all around the globe in 19 countries and in 5 different continents.

The supplier development network is specially located so as to support new business development. Regional teams are supported by global initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in each and every aspect of the business. The DFSS or otherwise known as Design for Six Sigma ensures product reliability in each and every region. The team is also included transactional Green Belts who utilize Six Sigma tools to business processes and implement lean methods.
