

Clark Forklift Part

Clark Forklift Parts - At this time, there are no less than 350,000 Clark lift trucks performing worldwide, and in excess of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique brands of lift trucks, with parts covering more than 120,000 particular items for all of its automated equipment. Your local Clark Supplier is your complete source for availability of all your components requirements provided by Clark Totalift.

Clark's exceptional Parts Distribution Facilities are conveniently located in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a really impressive intercontinental support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the materials handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a standard feature on every forklift.

Clark has a unyielding mission to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental restrictions, thus placing them in a prevailing industry position.

Clark has chosen the system of "Lean Production" at all of its assembly plants for the reason that this system is extremely economical and enables minimal use of resources. Established to guarantee maximum efficiency, this system is intended to find and acknowledge the most efficient ways for production plant management. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to improve the effectiveness and brilliance of their merchandise while minimizing costs. The contemporary value engineering agenda combines modern product development and provides improved consumer support and service within the industry.
